FOR IMMEDIATE RELEASE

June 9, 2010

Mississippi Oil Spill Response Updates

BILOXI—The following are upcoming actions and a summary of Mississippi's and British Petroleum's responses to the oil spill in the Gulf of Mexico:

MS Department of Environmental Quality:

- Continue State Emergency Response Team assessments and respond to any oil related reports along the Mississippi Coast.
- Continue to conduct State Coastline Assessment Team beach assessments.
- Respond to air observation and public complaints.

MS Department of Marine Resources:

- MDMR has closed an area of Mississippi waters with the western line passing through the middle of Horn Island to the eastern line at the Miss. / Ala. state line, and from the Mississippi/ federal waters line to approximately four to five miles north of Horn and Petit Bois Islands. This area is lying south of 30 degrees 18 minutes north latitude to federal waters and east of 88 degrees 39 minutes west longitude to the Miss. / Ala. state boundary.
- Boat crews are on standby for mission support.
- Continue to monitor closed Mississippi waters for any fishing or shrimp vessels.

British Petroleum:

- The estimated oil spill flow is between 12,000 and 19,000 barrels per day.
- The Rannoch Shuttle Tanker is en route from England, and will arrive between June 12 and June 15.
- Riser Insertion Tube Tools, another form of containment, are staged along the sea floor pending the effectiveness of top cap and top hat operations.
- Three top hats are currently placed on the sea bed pending the effectiveness of other operations.

MS Military Department:

- The Mississippi National Guard will continue to conduct utility helicopter flights to reconnaissance location and condition of boom.

Current public announcements:

- A total of 4,307 Mississippians have filed claims with BP, and \$5,685,083.23 has been paid out.
- MDEQ and MDMR are asking the public to **AVOID** handling any tar balls, and to please report tar ball locations and broken or disconnected boom by calling: (866) 448-5816.
- Boom deployment: Incident Command Post in Mobile, Ala. reports that 100 percent of the area contingency plan is complete with 367,700 feet of boom deployed to protect sensitive areas along the Mississippi Gulf Coast. MDEQ and MDMR are working with BP, the responsible party for the spill, to direct the placement of the boom.

Summary of actions completed:

MS Emergency Management Agency:

- MEMA has a three person team at the Area Command Center in Biloxi, two staff members in the Mobile Command Center, and one area coordinator in each coastal county's Emergency Operations Center.

MDEQ:

- Tar balls were reported in many areas along the Mississippi Coast shoreline.

MDMR:

- Conducted monitoring between the barrier islands to detect the presence of any potential pollutant.
- Boom patrol was conducted in Hancock, Harrison and Jackson Counties.
- Boom was assessed by air, and additional breaks were reported.

MS Military Department:

- Conducted utility helicopter flight for boom reconnaissance.
- Conducted flight for MDMR and MDEQ.

BP:

- The top hat recovered 7,850 barrels of oil yesterday, with an estimated daily recovery of 15,700 barrels.
- Individuals interested in specialty volunteer training should email horizonresponse@pecpremier.com to request training information from BP.
- BP has opened three state community outreach offices and three Mississippi claims offices in each of the three coastal counties.
- To date, 3,807 vessel owners, captains and crew members have participated in the training courses offered in Mississippi, and 1,717 vessel owners in Mississippi have submitted charter agreements.

MS Commission for Volunteer Service:

- The Deepwater Horizon Oil Spill Volunteer Response plan has been submitted to the governor for approval.
- Currently MCVS has 3,970 volunteers registered to respond to the oil spill cleanup.
- MCVS statistics: 1,701 trained volunteers – 216 volunteers participated in beach cleanup – 840 volunteer hours worked – 37 miles of beach cleaned.
- A team of Mississippi Power employees received training to serve as Volunteer Coordinators for the Mississippi Wildlife Response Center. If oiled wildlife is brought to the response center, the volunteer coordinators will help organize and supervise unaffiliated volunteers assigned to the center.
- Volunteer service opportunities as defined in the Deepwater Horizon Oil Spill Volunteer Plan are now posted on the www.volunteermisissippi.org website and can be viewed by interested volunteers. These pre-defined service opportunities are being shared with county emergency management agencies to facilitate requests for volunteer assistance.
- The Coast Watch program has been redesigned by the Audubon Society and is now being called the Audubon Coastal Bird Survey, as a long-term, ongoing program. The initial phase of the program will remain a unified collaboration between MCVS, BP and the Audubon Society to coordinate teams across the state's coast to observe and record area wildlife and coastal habitats using cameras and GPS devices. The initial training for these teams is limited and will be open to registered volunteers through invitation.
- MCVS is working with Tri-State contracted rescue workers to provide wildlife response opportunities for volunteers. These opportunities will not involve coming in contact with oil, oil-contaminated material or oiled wildlife. Volunteers will be allowed to participate in duties such as feeding cleaned birds that have been moved in to the cold zone, and cleaning and building cages.

Small Business Administration:

- The SBA has opened a sixth Business Recovery Center at the Hancock County Chamber of Commerce in Bay St. Louis. To file a claim or learn more call (800) 659-2955 or (800) 877-8339 for the hearing impaired, or visit www.sba.gov/services/disasterassistance.
- SBA has conducted a concentrated effort in reaching out to the Asian community, due to the high population of Asian citizens along the coastal region who work in the fishing industry.

MS State Department of Health:

“Disaster Preparedness Saves Lives and Property”
Visit us online at www.msema.org

- MSDH continues health surveillance in the three coastal counties. For more, visit their website, www.healthmys.com.

MS Department of Mental Health:

- Community Health Centers are open on the coast and are prepared to help individuals affected by the oil spill.

MS Department of Wildlife, Fisheries & Parks:

- MDWFP has finished the Hazardous Waste Operations and Emergency Response training and now has 80 officers certified.

MS Board of Animal Health:

- MBAH is continuing to support the Wildlife Rehabilitation Center activities in Gulfport.
- The Jackson ZOO has been assisting the Wildlife Rehabilitation Center in Theodore, Ala., and is prepared to assist the Gulfport facility when needed.
- Mississippi State University Extension Service has trained over 30 extension agents in hazardous materials.

Civil Air Patrol:

- CAP is currently flying three missions per week for MDMR and MDEQ, and one mission per day for the U.S. Coast Guard out of Mobile.

MS Department of Employment Security:

- MDES is accepting applications from Mississippi residents seeking paid oil response work at WIN Job Centers as well as online at www.mdes.ms.gov.

MS Development Authority:

- MDA's Tourism Division is developing a plan to work with coastal convention and visitors bureaus on messaging and to quickly put in place a campaign that will promote tourism to the Mississippi Gulf Coast as a whole.

Please check www.deepwaterhorizonresponse.com for regular updates on the spill and the response.

Important Phone numbers:

Submit claims to BP: 800-440-0858.

Report oiled wildlife: 866-557-1401.

Report oiled shoreline/ vandalized, broken or damaged boom: 866-448-5816.

Alternative technology, services or products/ vessels of opportunity: 281-366-5511.

Volunteer hotline/ community information: horizonresponse@pecpremier.com.

Report fish kills: 228-523-4128.

PEC hotline: specialty wildlife training: 866-647-2338.

Register on MS Commission for Volunteer Service for non-paid volunteer opportunities at mecs.org.
